

History

The company was founded in 1934 by Mr. Josef Studenik who started the operations in Hulin under the name „The First Moravian Saw and Tool Factory“, and began the production of manual and circular saws. The range of products was gradually extended for wood milling cutters, tungsten-tipped circular saw blades, frame saw blades, log band saws, planing and industrial knives, metal separating tools and saw blade bodies (steel centres). The company was nationalised in the year 1948 and became a state-owned enterprise. In 1992, the company became a private enterprise again, this time under the name of PILANA TOOLS. The name has remained to this day.

Present Times

The dynamically developing PILANA TOOLS company with its 650 employees is among the largest tools manufacturers in Europe. The tools are manufactured from steel of the highest quality grade in compliance with DIN and ISO standards. We continually focus our attention on increasing the efficiency of production processes this, in addition to our long-term experience, allows us to offer products of very high quality at highly competitive prices. PILANA TOOLS currently exports approximately 80% of its total production into 92 countries and can be found in all the important world markets.

- » PILANA TOOLS Saw Bodies spol. s r.o.
- » PILANA TOOLS Metal Saws spol. s r.o.

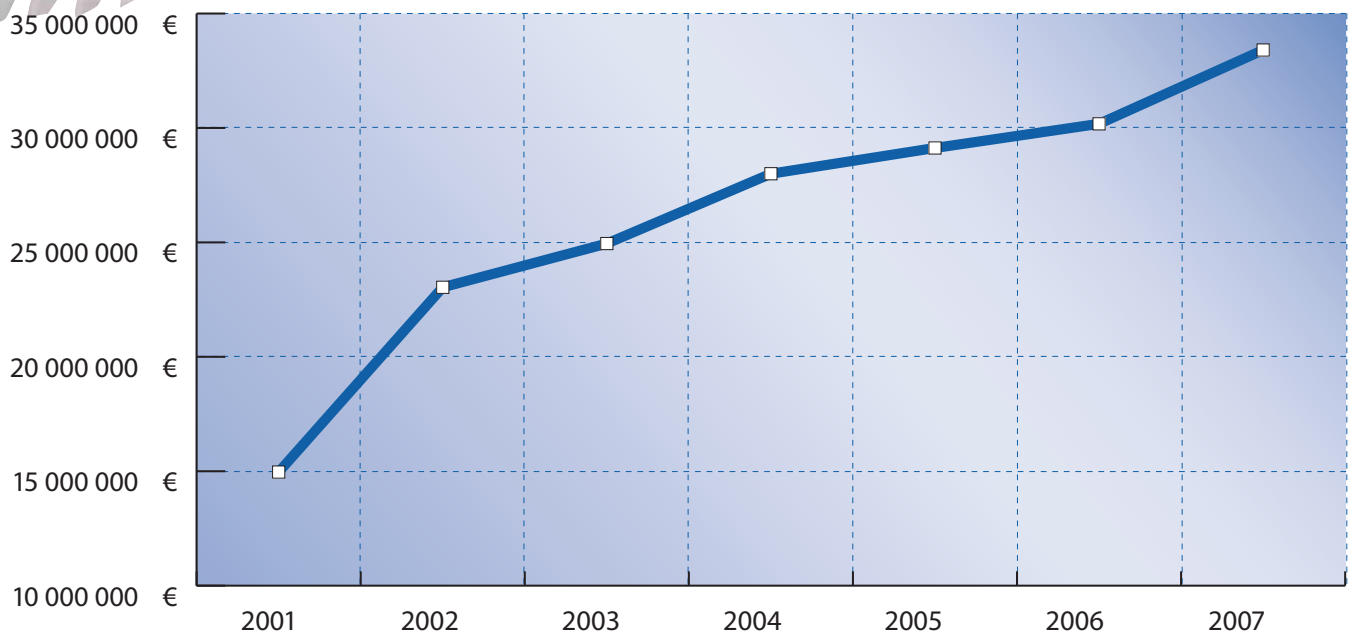

Property Shares in Other Companies

- » ARNTZ CZ s.r.o. – Czech Republic
- » PILANA MARKET, s.r.o. – Czech Republic
- » Pilana Tools Kft. – Hungary
- » Enev-Pilana Ltd – Bulgaria
- » OOO „Pilana Start Instrument“ – Russia
- » OOO TSC „PILANA“ – Russia

Company Turnover in the Years 2000–2007

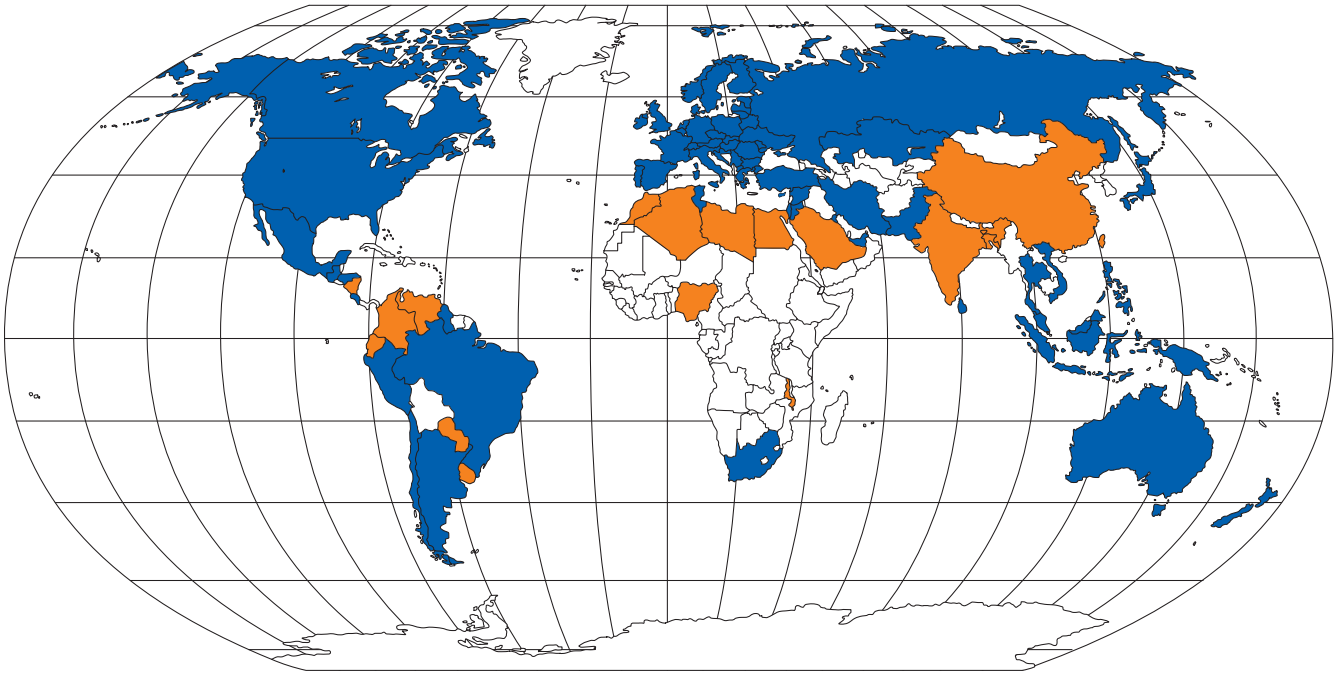

The PILANA TOOLS company has invested a lot of effort into its expansion to foreign markets over the last decade.

Its turnover has more than doubled since the year 2000. The total sales volumes for the last three years are a significant proof that the company has achieved an important position in the world market and that it keeps strengthening this position. An important factor contributing to this success is the flexibility in providing solutions for non-standard requirements of our customers.

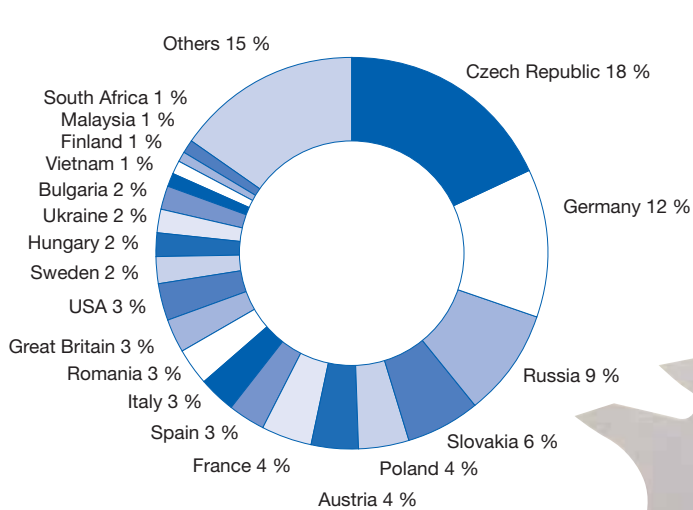

Export Map

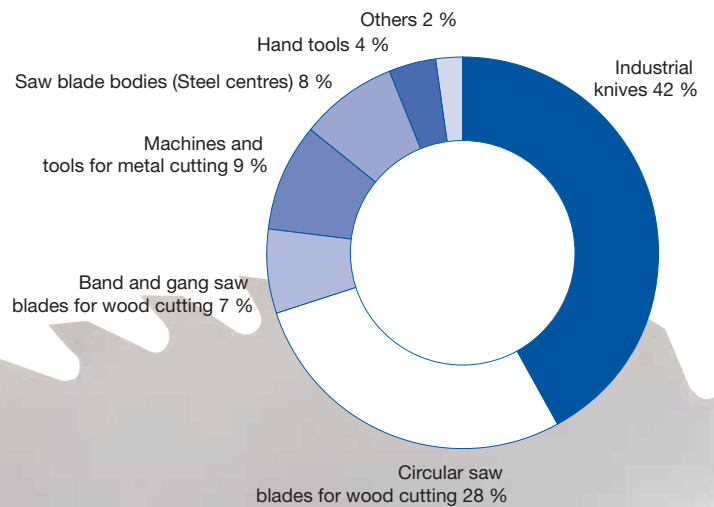

Countries PILANA TOOLS has expanded to after 2004 are shown in orange colour. These are over 20 countries all around the world.

Sales Based on Countries

Product Range Structure

PILANA TOOLS Wood Saws spol. s r.o.

Production, sales and servicing of

- » tungsten-tipped circular saw blades for wood and metal cutting
- » diamond tipped wood working tools
- » band saw blades for wood cutting up to 80 mm width

Hardening line for band saw blades ALO 191 CP

Setting and measuring equipment for band saw blades ALO 181 and ALO 185

Automatic tooth welding machine KIRSCHNER LK 1000

Sheet metal levelling machine ARKU Flat Master 80

Automatic sharpening centre Vollmer CHD 270

PILANA TOOLS Knives spol. s r.o.

Production and sales of industrial knives for

- » wood processing industry
- » plastic industry
- » paper industry
- » agriculture
- » material recycling

Heat treatment line

Grinding of industrial knives

Laser cutting centre TRUMATIC L 3030

CNC processing centre HAAS Super VF 3

PILANA TOOLS Saw Bodies spol. s r.o.

Production, sales and servicing of

- » circular saw blades made of tool steel
- » band saw blades for wood cutting – over 80 mm width
- » gang saw blades
- » saw blade bodies (steel centres)
- » circular knives

Laser cutting centre TRUMATIC L 3030

Hardening line HEIMSOTH

Welding machine IDEAL – work

Run-out measuring

Rolling and stretching machine Vollmer RC 100

Laser cutting centre TRUMATIC L 3030
– cutting head

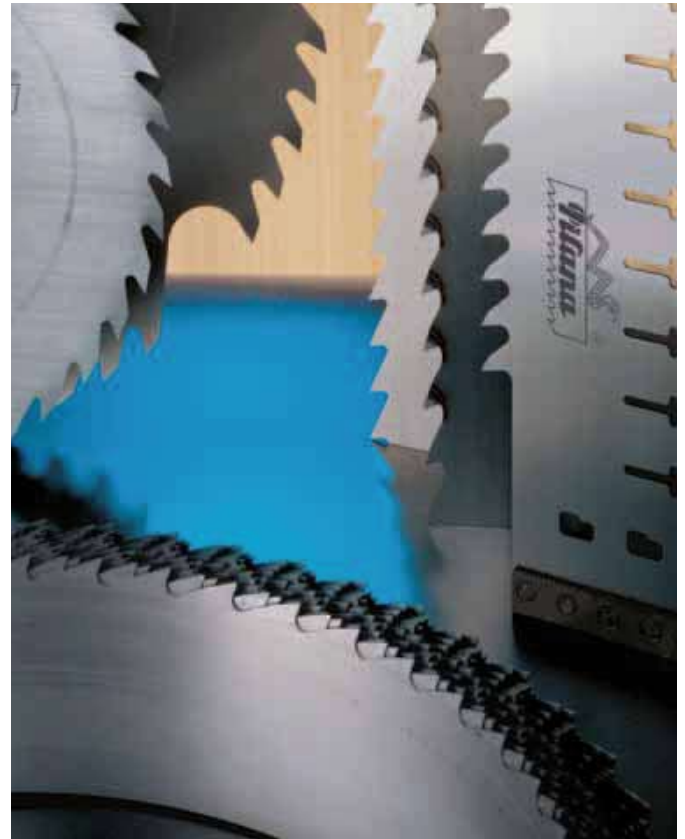

PILANA TOOLS Metal Saws spol. s r.o.

Production, sales and servicing of

- » metal cutting machines
- » band saw blades for metal cutting
- » gang saw blades for metal cutting
- » circular saw blades for metal cutting
- » hand tools

Automatic tooth welding machine KIRSCHNER LS-3 H

Why Choose Pilana?

- » PILANA is a traditional and renowned brand with a long-standing tradition and extensive customer orientation
- » we offer a wide range of wood working tools, metal cutting tools and machinery
- » products of PILANA TOOLS are characterised by excellent quality/price ratio
- » we produce tools based on our customer drawing documentation in large as well as small series. We also produce tools based on customer provided samples and thus meet any individual requirements of our clients
- » we focus on continual development of our products, especially the quality and utility value. We keep growing our business by investing heavily into new technologies, machinery and professional development and continual qualification improvement of our staff
- » we provide servicing of tools to achieve quality and properties comparable to new product
- » in our production of tools, we use materials of renowned manufacturers of Swedish and German steel
- » we have the „know-how“ and expertise based mainly on our experience in the field of tools production and development. This is achieved in cooperation with our customers and reflects the most recent technological developments and trends.
